

Science & Engineering Apprenticeship Program

APPLIED RESEARCH LABORATORIES, THE UNIVERSITY OF TEXAS AT AUSTIN (ARL:UT) is a U.S. Navy sponsored University Affiliated Research Center (UARC) with a strong commitment to outstanding research, education, and public service. ARL:UT offers research opportunities in four dynamic research laboratories.

WHO

Graduating high school seniors accepted to UT Austin in the fall are invited to apply. U.S. citizenship is required, and preference is given to students majoring in aerospace, electrical or mechanical engineering; computer science; geophysics; mathematics; or physics.

WHAT

Apprentices are appointed to full-time paid positions, at \$20+ per hour, working on real-world projects with scientists and engineers.

WHERE

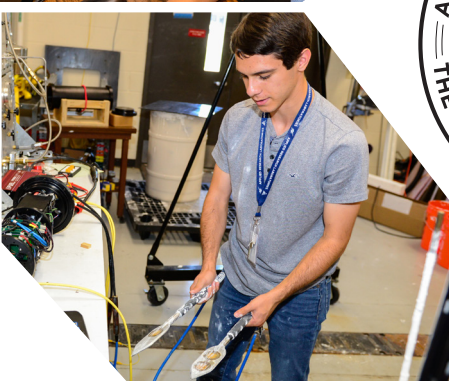

Applied Research Laboratories, J.J. Pickle Research Campus.

WHEN

June 6 through August 15, 2024.

APPLYING IS EASY!
